Subject: Halal Statement – Tagatose

January, 2024

To: All Domino Foods, Inc. Valued Customers:

This letter is written in response to customer inquiries regarding the Halal certified status of the additives and ingredients used in the manufacture of Tagatose distributed by Domino Foods, Inc.

This will certify that the product specified above does not contain ethyl alcohol, natural L-Cysteine extracted from human hair or feathers, animal fats and/or extracts, bloods of any origin, blood plasma, pork and/or other meat by-products. While a very limited quantity of isopropyl alcohol (2-propanol), is used as a seed carrier during our batch crystallization operation, none remains detectable in any of the final products we manufacture.

The equipment used for the manufacturing, filling and packing of Tagatose is not used in the manufacturing, filling or packing of products of animal origin or products containing ingredients of animal origin.

We trust this information is sufficient. Should you require additional information, please feel free to contact us at [QualityDocs-NA@asr-group.com](mailto:QualityDocs-NA@asr-group.com).

Sincerely,

S. Michael Burchell
